

**DISTRICT 3 ARES/RACES
REGIONAL EMERGENCY SERVICES NET PREAMBLE**

Good evening! This is _____ Net Control Station, this evening, for the District 3 ARES/RACES Regional Emergency Services Net - serving Grays Harbor, Lewis, Mason, Pacific and Thurston Counties. This Net meets every Sunday on the 145.47 repeater and the *BeachNet* @ 1915 hours Local. The purpose of this net, is to coordinate the activities of Public Service and Emergency communications via ARES/RACES, within this Region. This is a directed net; all stations checking in, please use your full call sign for recognition by Net Control. In the event a Repeater Failure, the net will move to 3.987 lower sideband. During an actual EMERGENCY, a Regional Operations Net will be established on this frequency to expedite and coordinate Amateur Radio communications and logistics within this Region - and the Washington State Department of Emergency Management.

This net will yield the frequency to emergency or priority traffic at any time.

Visiting stations are welcome and encouraged to check in at the end of the normal roll call. Stations with traffic for the net, please list your traffic as you check in.

Is there any emergency or priority traffic, call sign only please.

This is _____ now calling for check ins, starting with:

Are there any Emergency Powered or Mobile ARES/RACES Team members wishing to check in?

We will now begin the Roll Call

Grays Harbor EC/RO
